

In the box

- Two large universal ear tips
- Two medium universal ear tips
- Two acoustic filters "25dB"
- Aluminium key-ring carrying case
- Manual EN, FR, DE, IT and ES

Crescendo Sleep reusable hearing protection

The Crescendo Sleep is a reusable, washable universal fit hearing protector designed to help you have a peaceful nights sleep. Crescendo Sleep comes with two sizes of universal tips, suitable for most ear sizes, a convenient carry case and a pair of washable filters.

A moderate snorer reaches 50-60dB whilst severe snoring can hit 90dB. To put that in perspective; a car horn is around 90dB! Crescendo sleep reduces the sound level by a CE certified 24dB, eliminating or reducing sound to a non-intrusive level.

Crescendo Sleep is designed to allow air to enter the ear. This has two advantages over competing products;

- Limits or stops that uncomfortable 'hot' irritation feeling in your ear.
- Helps reduce the feeling of 'hearing your pulse' caused by restricting blood flow in the ear, especially noticeable when laying on your side.

Sleeping with ear tips will take a little getting used to, as it can sound unnaturally quiet for the first night. After that you'll wonder why you didn't use them earlier.

Product specific benefits

- Reduces the effect of a partner snoring
- Noisy hotels – reduces noise from lifts, revellers, kitchen noise, etc
- Street noise – reduction in car noise, refuse collection, revellers, etc
- Deeper rest

Crescendo facts

- Natural - filter technology maintains spatiality
- Feel better – high noise levels are tiring, Crescendo reduces noise
- Comfort - Crescendo filters allow air into the ear minimising irritation and 'hot ear'
- Environmental friendly – Ear tips are made of 100% organic material generating only carbon dioxide and water during incineration
- Upgradable - The filters of your Crescendo hearing protection are replaceable and upgradable for use in custom fit ear moulds designed for Dynamic Ear Company products
- Safety standards - hearing protection certified to CE and ANSI standards
- Long lasting - Reusable Hearing Protection, fully washable tips and filters

Based in Delft, The Netherlands, Dynamic Ear Company develops and manufactures innovative hearing protection and sound management solutions for musicians, industry and leisure activities, almost every application where loud sounds can cause permanent hearing damage.
